EDUCATION

Georgia State University

Aug. 2025 – May 2027

M.S. Computer Science (GPA: 3.90/4.00)

Atlanta, GA

- **Coursework:** Cybersecurity, Network Security, Cryptography, Cloud Computing, Risk Management
- **Hagan Scholar** — 1 of 20 international scholars selected globally for academic excellence and leadership
- **CodePath Scholar 2026** — Selected for CodePath's competitive technical scholarship program

Mahindra University

Jul. 2021 – May 2025

B.Tech Computer Science and Engineering

Hyderabad, India

EXPERIENCE

Central Depository Services (India) Limited – CDSL

May 2026 – Present

IT Risk Intern – Risk Management Department

Mumbai, MH

- Spearheading **AI Governance policy drafting** for one of India's first comprehensive AI governance frameworks in financial markets, covering model risk, ethical AI use, data integrity, and regulatory alignment
- Trained and **enabled HR and compliance teams to use Microsoft Copilot** for drafting onboarding and regulatory documents; designed prompting workflows adopted across departments in a regulated environment
- Partnering with **SEBI** on regulatory compliance; translating circulars into actionable internal controls for a **Market Infrastructure Institution** safeguarding **180M+ demat accounts**
- Executing **enterprise-wide IT risk assessments** against ISO 27001, NIST CSF, and SEBI frameworks; maintaining IT Risk Register, BCP/DR reviews, vendor risk assessments, and audit readiness documentation

Georgia State University

Jan. 2026 – Present

Graduate Research Intern – Cybersecurity Engineering

Atlanta, GA

- Built a **cloud-native threat detection platform** ingesting logs from network, endpoint, and cloud systems; developed AI-driven anomaly detection models mapped to **NIST CSF and MITRE ATT&CK** with automated alert triage

TechMojo Solutions Pvt Ltd

Jun. 2024 – Sep. 2024

Java Backend Intern – Application Security

Remote

- Developed **secure REST APIs** (Spring Boot, Spring Security) with RBAC; mitigated **OWASP Top 10** vulnerabilities and built audit-ready logging infrastructure supporting compliance and incident response

PROJECTS

LLM Security Assistant | RAG, LangChain, FAISS, FastAPI, Streamlit, Docker

2026

- Scoped and built a **full-stack RAG application** that lets users query application, network, and firewall logs in natural language; designed the ingestion pipeline, vector store, API, and frontend end-to-end
- Implemented **FAISS-backed retrieval with LangChain**, grounding LLM responses in verifiable log sources to eliminate hallucination; Dockerized and documented for Azure App Service deployment
- Would improve by adding evaluation harnesses to measure retrieval quality and swapping static log ingestion for a streaming pipeline (Kafka) — scoped but not yet implemented

AI-Based DDoS Detection System | Python, Scapy, XGBoost, FastAPI, Streamlit

2025

- Built an end-to-end **ML intrusion detection system** with real-time packet sniffing, attack simulation, and a monitoring dashboard; achieved **99.97% detection accuracy** using ensemble models on CIC-IDS dataset

COMMUNITY INVOLVEMENT

Ocean Cleanup Volunteer — Active participant in coastal cleanup drives; consistent hands-on environmental service

Mid-Day Meals Program — Volunteer in food distribution to under-resourced government schools, supporting student nutrition access

SKILLS

AI & LLM: RAG Pipelines, LangChain, FAISS, LLM Integration, Prompt Engineering, AI Governance, Anthropic Claude (Claude 101 + AI Fluency certified)

IT Risk & GRC: IT Risk Assessment, Risk Register, Risk Treatment, Third-Party Risk, BCP/DR, Audit Support, Regulatory Compliance

Frameworks: NIST CSF, ISO 27001, SEBI IT Governance, COBIT, MITRE ATT&CK, OWASP Top 10

Tools & Programming: Python, FastAPI, Docker, Splunk, ELK Stack, Git, Java, SQL, Bash

Certifications: CompTIA Security+, Google Cybersecurity Professional, Enterprise Risk Management – IRM Global Level 1
